

QUALITY CONSTRUCTION

- Since 2012, over \$12mm has been invested in our production facilities in Thompsettown, PA. The result? **State-of-the-art manufacturing processes** that maintain high-quality construction of every cabinet, every time.
- Our finishing process gives our cabinets a **more durable** finish with a thicker topcoat than our competition, resulting in beautiful cabinets made to last for years.

CUSTOMER FOCUSED

- Our New Product Development (NPD) process is led by the voice of our customers. We are **nimble and adapt to special requests** whenever possible.
- Advanta's outstanding field services team provides **product expertise and support** from initial measure to delivery to warranty support.
- Our primary goal is to complete every job on-time, **complete, and with satisfied customers** we can continue to build long-lasting partnerships with.

EXPERIENCED TEAM

- Our company was **founded in 1943** as Triangle Pacific and has been a leader in the multi-family kitchen and bath cabinet industry ever since.
- The company has undergone two major ownership and name changes over the last 75 years. Now **known as acpi**, the company manages two brands: Echelon Cabinetry for single-family and dealer markets, and Advanta Cabinets for multi-family and commercial markets.
- Our veteran sales team is **one of the largest direct salesforces in the industry** and is always eager to engage with our customers and serve their needs. Our account managers focus on specific customer channels, ensuring you have a sales partner that understands your business.

ENVIRONMENTALLY CONSCIOUS

- All our products are **compliant with ATCM CARB II regulations**, which are some of the most stringent standards in the industry for formaldehyde emissions in composite wood products.
- All Advanta **products are certified under the KCMA Environmental Stewardship Program (ESP)**, the only environmental certification program designed specifically for kitchen and bath cabinets. ESP certification is based on compliance in five categories to ensure environmental safeguards are followed from material sourcing all the way through to delivery, and requires annual re-certification.

AFFORDABLE LUXURY

- Advanta Cabinets offers **framed and frameless cabinets** with an extensive array of door styles and finish options.
- Our sales teams can value-engineer layouts to create **functional, beautiful kitchens**. Durable and stylish cabinetry is in reach **no matter the budget**.

OPERATIONAL EXCELLENCE

- Our lean manufacturing processes allow us to **implement improvements quickly and without interrupting service** to our customers.
- Every cabinet is **built to order**. Quality audits are conducted around the clock to ensure every cabinet meets our standards.
- We have an **open door policy**. Every customer is invited to visit our plant any time. We'd love to see you and hear how we are doing and how we can grow our partnership with you.

OUR PROMISE

- **"High-quality. Great value. Peace of mind."** These are the pillars at the very core of our business and how we measure our success. Our promise is to provide high-quality cabinets at a great value and to give every customer the peace of mind that we will have your back from start to finish.
- We strive to **deliver every order on time and complete**; however, if there is ever an issue with your order, please reach out to customer service or your account manager and we will make it right.

who we are...

ADVANTA[®]
C A B I N E T S

High-Quality. Great Value. **Peace of Mind.**
