Freedom Product Launch Change

Recently, Advanta Cabinets has been developing the Freedom door style, the first in a new species, TruCoat. TruCoat is designed to combine the beauty of paint with the resilience and uniformity of laminate. Despite our best intentions and efforts, this product is not yet ready to release to our customers. Advanta Cabinets proudly stands behind all its products; when we bring this product to market, you can trust it will be the same level of quality and on-trend design you expect from our brand. We appreciate your patience as we finalize this product offering and are eager to share it with you soon. Stay tuned for a new go-to-market date.

Please contact your Advanta account manager with any questions.
Advanta Cabinets offers door styles in a variety of wood species and constructions. Whatever your project needs, Advanta Cabinets delivers superior craftsmanship, strength, and durability.
When Precisionware, Inc. was founded in 1948, no one imagined that we would be a thriving leader in the American cabinetry market 70 years later.

Throughout our history, acpi has gone through several name changes, been both publicly and privately owned, and has expanded into a national presence. One thing that hasn’t changed is our commitment to building high-quality cabinets right here at home. Manufactured in Thompsontown, PA, we offer a wide variety of door styles and finishes to suit any style, and all at a great value for our customers.

Best yet, all of our cabinetry lines are certified for KCMA’s Environmental Stewardship Program, meaning you can trust that you are putting a safe product in your home for your family to enjoy for years to come. That’s a legacy we’re proud of.

FRONT FRAME
3/4" thick kiln dried solid hardwood:
    stiles 1-1/2" wide, mulls 3" wide, rails 1-3/4" wide

END PANELS
Nominal 1/2" (12mm) thick, wood based composite panels
dadoed to receive tops and bottoms. End panels are not
edgebanded. Optional upgrade available

TOP/BOTTOM PANELS
Nominal 1/2" (12mm) thick wood based composite panel
with maple grained or white laminate on exterior and interior
surfaces for wall cabinets and interior surface for base cabinets.

HANGING RAILS
Wall cabinets have nominal 1/2" (12mm) thick x 2-7/8" high multi-ply
hardwood plywood hanging rail running full cabinet width at top and
bottom. Base cabinets have nominal 1/2" (12mm) thick x 2-7/8" high
wood based composite panel hanging rail running full cabinet width at top.

BACK PANEL
Nominal 1/8" (3mm) thick hardboard with maple grained
or white interior surface.

SHELVES
Nominal 5/8" (15mm) thick wood based composite panel
with maple grained or white laminate on both faces and
matching edgeband on facing edge. Shelves are adjustable in all standard wall and
base cabinets.

TOE KICK
Nominal 1/2" (12mm) thick unfinished wood based
composite panel captured between end panels.
Toe kick is 4" high and recessed 4".

BASE I-BEAM BRACES
Two 1/2" thick (12mm) x 2 7/8" wide composite
panel braces running full-depth front to back of
cabinet, recessed down 1" from top. All braces
are glued and stapled at top of cabinet to front frame and hang rail, and dadoed into end panel.

DRAWERS
Nominal "1/2" (12mm) thick solid wood front, back, and sides with dovetail construction.
Drawer bottoms are nominal 1/4" (6mm) thick
multi-ply hardwood inserted and stapled into dado in front, back and sides. Optional upgrade available

DRAWER GUIDES
High-quality epoxy coated steel, Cushion-Tec™, side mounted guides, self-adjusting in mounting brackets. Built-in stop, self-closing
and stay-closed features with a 75 lb. rated load capacity. Optional upgrade available

HINGES
Heavy-duty, high-quality steel, concealed 6-way adjustable hinge with self-closing feature. Optional upgrades available

GENTLE-TOUCH SOFT CLOSE HINGE
PULL-OUT SHELF TRAYS

Construction Upgrades
Upgrade options are not standard and must be purchased individually

Customizing your new kitchen to meet your precise construction requirements can give your kitchen a personal touch. Tailoring the kitchen to your specific needs creates a distinctive appeal that can be enjoyed for many years to come.

**ALLWOOD CONSTRUCTION**

**BEAUTY, DURABILITY, AND STRENGTH FROM ALL WOOD CONSTRUCTION**

1. **FRONT FRAME**
   - 3/4" thick kiln dried solid hardwood:
     - stiles 1-1/2" wide, mulls 3" wide, rails 1-3/4" wide

2. **END PANELS**
   - Nominal 1/2" (12mm) thick, multi-ply plywood dadoed to receive tops and bottoms. End panels are not edgebanded. **Optional upgrade available**

3. **TOP/BOTTOM PANELS**
   - Nominal 1/2" (12mm) thick multi-ply hardwood plywood. Tops and bottoms set into grooved end panels, and front rails glued and stapled. Bottoms are supported at rear of base cabinets by nominal 1/2" (12mm) thick multi-ply hardwood plywood.

4. **HANGING RAILS**
   - Wall cabinets have nominal 1/2" (12mm) thick x 2-7/8" high multi-ply hardwood plywood hanging rail running full cabinet width at top and bottom. Base cabinets have nominal 1/2" (12mm) thick x 2-7/8" high multi-ply hardwood plywood hanging rail running full cabinet width at top.

5. **BACK PANEL**
   - Nominal 1/8" (3mm) thick hardwood plywood.

6. **SHELVES**
   - Nominal 5/8" (15mm) thick multi-ply hardwood plywood, with hardwood veneer banded front edge. Shelves are adjustable in all standard wall and base cabinets.

7. **TOE KICK**
   - Nominal 1/2" (12mm) thick multi-ply hardwood plywood. Toe kick is 4" high and recessed 4".

8. **BASE I-BEAM BRACES**
   - Two 1/2" thick (12mm) x 2 7/8" wide plywood braces running full-depth front to back of cabinet, recessed down 1" from top. All braces are glued and stapled at top of cabinet to front frame and hang rail, and dadoed into end panel.

9. **DRAWERS**
   - Nominal 1/2" (12mm) thick solid wood front, back, and sides with dovetail construction.
   - Drawer bottoms are nominal 1/4" (6mm) thick multi-ply hardwood inserted and stapled into dado in front, back and sides. **Optional upgrade available**

10. **DRAWER GUIDES**
    - High-quality epoxy coated steel, Cushion-Tec™, side mounted guides, self-adjusting in mounting brackets. Built-in stop, self-closing and stay-closed features with a 75 lb. rated load capacity. **Optional upgrade available**

11. **HINGES**
    - Heavy-duty, high-quality steel, concealed 6-way adjustable hinge with self-closing feature. **Optional upgrades available**
FRONT FRAME
3/4” thick kiln dried solid hardwood:
stiles 1-1/2” wide, mulls 3” wide, rails 1-3/4” wide

END PANELS
Nominal 1/2” (12mm) thick, multi-ply Type 1 exterior glue hardwood plywood dadoed to receive tops and bottoms. End panels are not edgebanded. Optional upgrades available

TOP/BOTTOM PANELS
Nominal 1/2” (12mm) thick multi-ply hardwood plywood

HANGING RAILS
Wall cabinets: nominal 3/4” (18mm) thick by 3” high multi-ply hardwood plywood running full cabinet width at the top and bottom. Base cabinets: 3/4” (18mm) thick by 7-1/4” high solid pine at the top

BACK PANEL
Nominal 1/4” (6mm) thick hardwood plywood

SHELVES
Nominal 1/2” (12mm) thick multi-ply hardwood plywood, 10-7/8” deep with hardwood veneer banded front edge. Shelves are fixed into dadoes in end panels on all cabinets.

TOE BOARD
Toe kick is 4” high and recessed 4-9/16”. 3/4” thick, ACQ® pressure treated toe board captured between end panels. Optional upgrade available
